INTRODUCTION

Annual Disclosure of Crime Statistics

Innovate Salon Academy's Campus Safety and Security Report is published by October 1 of every year. This is the compliance document to the Federal Student Right to Know and Campus Security Act of 1990 also known as the Clery Act, with Higher Education Amendments. Crime statistics as listed in this pamphlet reflect reported crime only and are for calendar months January through December.

What is the Clery Act?

Signed into law in 1990, the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) is a federal law that requires colleges and universities to disclose certain timely and annual information about campus crime and security policies.

All post-secondary public and private institutions participating in federal student aid programs must adhere to these regulations. The Clery Act was championed by Howard & Connie Clery after their daughter Jeanne was murdered at Lehigh University in 1986.

History of Jeanne Clery Act

In April 1986, Jeanne Clery's life ended tragically when another student raped and murdered her in her residence hall room. Alarmed at the lack of transparency around crime and violence on college campuses, Jeanne's parents, Connie and Howard, committed themselves to create enduring change.

What is Innovate Salon Academy obligated to do?

To ensure compliance with the Clery Act, The Academy must meet obligations in the following categories:

- Collect, classify and count crime statistics
- Issue campus alerts. To provide the campus community with information necessary to make informed decisions about their health and safety The Academy must:
 - issue a timely warning for any Clery Act crime that represents an ongoing threat to the safety of students or employees.
 - Issue an emergency notification upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to health or safety of students or employees occurring on campus.
- Provide educational programs and campaigns that promote the awareness of dating violence, domestic violence, sexual assault and stalking, The Academy must:
 - provide primary prevention and awareness programs to all incoming students and new employees
 - provide ongoing prevention and awareness campaigns for students and employees.
- Have procedures for institutional disciplinary action in cases of dating violence, domestic violence, sexual assault and stalking. Disclose these policy and procedures in the annual security report.
- Publish an annual security report containing safety and security related policy statements and crime statistics. The Academy must distribute it to all current students and employees. Schools also must inform prospective students and employees about the availability of the report.
- Submit crime statistics to the Department. Each year in the fall The Academy must participate in a Web-based data collection to disclose crime statistics by type, location and year.

Collection of Statistics

The Clery Act requires all institutions to collect crime reports from a variety of individuals and organizations that are considered to be "campus security authorities" under the law.

Under the Clery Act, a crime is "reported" when it is brought to the attention of a campus security authority or local law enforcement personnel by a victim, witness, other third party or even the offender. It doesn't matter whether or not the individuals involved in the crime, or reporting the crime, are associated with The Academy. If a campus security authority receives a report, he or she must include it as a crime report according to Academy procedures. The Academy must include statistics based on reports of alleged criminal incidents. It is not necessary for the crime to have been investigated by the police or a security authority, nor must a finding of guilt or responsibility be made to include the reported crime in The Academy's crime statistics.

The Annual Campus Safety and Security report is prepared in the Financial Aid office and is published on The Academy's website.

Reporting Clergy Act Crimes

Victims or witnesses are encouraged to report crimes on a voluntary, confidential basis for inclusion in the annual security report. Reports can be made directly to approved Campus Security Authorities or to the Ewing Police Department [\(609\)882-1313](tel:(609)882-1313). The Academy encourages accurate and prompt reporting of all crimes to appropriate law enforcement agencies. Persons reporting criminal incidents should provide as much information as available. If possible, this should include the location, nature of injuries, the description of possible criminals, and briefly what happened. The Academy will utilize the South Plainfield Police Department as required to protect victims, investigate incidents, and make arrests when necessary.

“Campus Security Authority” is a Clergy Act-specific term that encompasses groups of individuals and organizations associated with an institution.

The Academy assigns CSA’s from officials of the Academy administrative staff officials. An “official” is defined as any person who has the authority and the duty to take action or respond to particular issues on behalf of The Academy. Administrative officials selected as CSA’s hold significant responsibility for student and campus activities.

CAMPUS SECURITY POLICIES

Emergency Response and Evacuation Procedures

This policy establishes the emergency response and evacuation procedures for The Academy. This policy has been established to ensure, to the greatest extent possible, the safety and welfare of students and employees. This policy is aligned with and in compliance with the Higher Education Opportunity Act that requires all Title IV institutions, without exception, to have and disclose emergency response procedures in response to a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on the campus.

The requirements set forth in this policy are only applicable to emergency or dangerous situations occurring on campus. The Academy may issue emergency notifications about emergency or dangerous situations that occur in the broader community if Academy officials determine that such notifications provide helpful or relevant information to the campus population.

The Academy will, upon confirmation of an ongoing significant emergency or dangerous situation that poses an imminent threat to the health and safety of campus community members, immediately issue emergency notifications to the students. While it is impossible to predict every significant or dangerous situation that may occur on campus, the following identified situations shall warrant an emergency notification after confirmation.

- Approaching tornado, hurricane or other extreme weather conditions
- Earthquake
- Gas leak
- Terrorist incident
- Armed intruder
- Bomb threat
- Civil unrest or rioting
- Explosion
- Nearby chemical or hazardous waste spill

Academy officials shall use their best, reasonable judgment in all other situations as to whether an emergency notification is warranted. Situations that may create business, academic or research interruptions, but do not pose a health or safety risk, do not necessitate an emergency notification. Notifications about such situations may include:

- Power outage
- Snow closure
- Temporary building closures

Emergency Notification

The Academy will immediately notify the students and staff upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus. Confirmation means that a designated official (or officials) has verified that a legitimate emergency or dangerous situation exists. Confirmation doesn't necessarily mean that all of the pertinent details are known or even available.

The Academy will confirm that there is an emergency or dangerous situation on a case-by-case basis after consideration of the available facts, including factors such as the nature of the emergency and the continuing danger or risk to the campus community. The Compliance Director or designee will confer with the Owner and if needed, local authorities in order to confirm an emergency.

The Compliance director is the designated coordinator to in act emergency procedures and communication.

If the determination is made that an emergency notification will be issued, the Compliance Director will confer with the appropriate public and Academy officials in order to make a determination of who needs to be notified, and what the content of the notification should be.

This determination will be made giving consideration to who may be endangered by the emergency, who else may be affected by it, and what information is appropriate to communicate to them. The Compliance Director has the flexibility to discern whom to alert according to who may be at risk. In general, the entire campus community will be notified when there is at least the potential that a very large segment of the community will be affected by the situation, or when the situation threatens the operation of the campus as a whole. There will be continuing assessment of the situation and additional notifications may be issued if a situation warrants such action.

The Compliance Director will determine how much information is appropriate to disseminate at different points in time. Depending on what segments of the community notifications target, the content may differ.

Initiating the Notification System

The Academy will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system via crew app, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to resolve the emergency.

As soon as The Academy has confirmed that a significant emergency or dangerous situation exists, the Compliance Director shall:

- Take into account the safety of the campus community
- Determine what information to release about the situation
- Begin the notification process

The only reason the Compliance Director would not immediately issue a notification for a confirmed emergency or dangerous situation would be if doing so would compromise efforts to:

- Assist a victim
- Contain the emergency
- Respond to the emergency
- Otherwise mitigate the emergency.

The law doesn't specify who may or may not be a responsible authority except to qualify that they use professional judgment.

The Academy will notify the campus community that there's an emergency or dangerous situation as follows:

- Notify first applicable local first responders
- Google Chat message system

Director of Operations: Yenny Johnson is responsible for initiating the emergency notification system.

911 Emergency

Disseminating emergency information to the larger community.

The Academy disseminates emergency information to individuals and/or organizations outside of the campus community in the following ways:

- Cell phone alerts to students' parents and guardians via school app

- FaceBook and/or Instagram community page

The Compliance office is responsible for developing the information to be disclosed and for overseeing the dissemination of pertinent information to the larger community.

Testing of the Emergency Response and Evacuation Procedures

The Academy tests the emergency response and evacuation procedures on at least an annual basis. Testing includes:

- Tests that may be announced or unannounced. Tests are regularly scheduled drills, include exercises and appropriate follow-through activities, designed for assessment and evaluation of The Academy's emergency plans and capabilities.
- Tests are conducted, at minimum, at least once a year and may be announced or not.

To comply with the Clery Act requirement the test must meet all of the criteria below:

- It must be scheduled. An actual emergency situation or a false emergency alarm served may not serve as a test of The Academy's procedures.
- Must contain drills. A drill is an activity that tests a single procedural operation (e.g., a test of initiating a cell phone alert system or a test of campus security personnel conducting a campus lockdown).
- Must contain exercises. An exercise is a test involving coordination of efforts (e.g., a test of the coordination of first responders, including police, firefighters and emergency medical technicians).
- Must contain follow-through activities. A follow-through activity is an activity designed to review the test (e.g., a survey or interview to obtain feedback from participants).
- Must be designed for assessment of emergency plans and capabilities. The test should have measureable goals. For example, "Everyone involved in the emergency response and notification procedures will understand his or her role and responsibility."
- Must be designed for evaluation of emergency plans and capabilities. Designed so that, using the assessments, The Academy can judge whether or not the test met its goals. For example, "The evacuation process accounted for/did not account for the diverse needs of all members of the campus community."

Tests must address emergency response and evacuation on a campus wide scale. "Campus wide" scale means that tests must address The Academy's plan for evacuating all campus buildings.

Documentation of Testing

The Academy is required to document, for each test, a description of the exercise, the date, time and whether it was announced or unannounced. Although the law requires only one test each year, if The Academy has multiple tests in a year, documentation is required for each one.

Documentation must address each component:

- A description of the exercise (i.e., the test).
- The date the test was held.
- The time the test started and ended.
- Whether the test was announced or unannounced.

Clery Act-related documentation for emergency test documentation is required to be kept for seven years and is electronically filed on the Renaissance Secure drive.

Emergency Procedures

Although emergencies cannot be predicted, it is the belief of Innovate Salon Academy that they can be effectively managed. The following procedure is to be followed if an emergency arises:

Staff member confirms the existence of the emergency or situation

Staff member determines if 911 must be called, and if so, calls 911

Staff member notifies Academy officials and announces the proper Alert Code (using CREW app)

Officials to notify: Emergency situations, call **911** Ewing Police Department **609-882-1313**

Academy officials to notify:

Academy Owners, Director of Operations, Director of Financial Aid, Admissions, Educators, Front Desk Staff

Alert Code Reference

As a quick reference and reminder for all staff and students, the following Alert Codes will be used when an emergency situation arises. For specific information on each procedure, please refer to individual instructions:

CODE RED	Lockdown in place. Staff and students are to remain calm and do not leave the classroom.
CODE PURPLE	Evacuate the classroom and immediately exit through the front entrance only.
CODE YELLOW	Evacuate the classroom and immediately exit through the back exit only.
CODE GREEN	A dangerous situation has occurred outside of the building and no one is to leave the building.
CODE ORANGE	There has been a hostage, criminal/terroristic threat or situation.
All Clear	The emergency is over/codes are lifted

EMERGENCY RESPONSE PROTOCOL

CODE RED

1. Ensure all students are safe and remain in their classroom and remain as far from the door as possible.
2. Barricade doors and protect yourself.
3. No one exits the classroom until All Clear Code is given.

CODE PURPLE

This evacuation procedure prepares students and staff for a situation in which it would be dangerous to remain in the building or close to it, i.e. a gas leak, loss of heat over an extended period, critical plumbing problem, tornado, hurricane, massive fire, etc. It is essential that all staff and students remain calm, as these situations only get worse if panic and hysteria develop, and exit calmly through the front entrance only.

CODE YELLOW

This evacuation procedure prepares students and staff for a situation in which it would be dangerous to remain in the building or close to it, i.e. a gas leak, loss of heat over an extended period, critical plumbing problem, tornado, hurricane, massive fire, etc. It is essential that all staff and students remain calm, as these situations only get worse if panic and hysteria develop, and exit calmly through the back exit only.

CODE GREEN

1. Ensure all students are safe and remain in their classroom and remain as far from the door as possible.
2. Barricade doors and protect yourself.
3. No one is to leave the building.

CODE ORANGE

Upon receipt of criminal or terroristic threat, the individual receiving the information will inform Academy Officials or call 911, depending on the situation. At that time proper Alert Code will be announced.

What to do if a “Stranger” appears at the school, listen to your inner voice, or that “gut feeling”.

Use your best judgment and common sense

- Introduce yourself and ask if you can be of assistance. In the process, get their name and the reason for being in the Academy.
- If you are not satisfied with the answer, quickly and calmly push panic button located under front desk cash register, that will alert the South Plainfield Police Department of an emergency.

Evacuation Procedures

An evacuation of part or all of campus may be required before, during, or after a significant incident, emergency, disaster or major disaster, or catastrophic incident. An evacuation may constitute the movement of people from one area of the campus to another, or it could require movement to an off-campus location away from the hazards affecting an evacuation requirement. Such an evacuation may lead to an eventual return to the campus, or may involve reunification and/or mass transportation efforts in the event the return of people to the campus is not feasible.

Procedures

The primary goal is a safe and orderly evacuation to save lives and allow responding emergency personnel unimpeded access to address the campus incident.

- The authority to issue a campus evacuation order rests with the Compliance Director or their designee; the authority to issue an order covering the area surrounding and/or including the campus rests with the City according to its ordinances and plans.
- Alert local officials of evacuation plan.
- The evacuation order should not be lifted until consultation is made between the Academy and city officials. The authority to lift a campus evacuation order rests with the Compliance Director or their designee; the authority to lift an order covering the area surrounding and/or including the campus, issued by the city, rests with the city according to its ordinances and plans.

Security and Access to Campus Facilities

Employees seeking access to campus, outside established operational hours, must have prior permission from John Sickles 609-888-6550 jsickles@innovatesalonacademy.com.

Security of the campus facility is top priority in maintaining a safe campus. Exterior entries are monitored by digital surveillance 24 hours a day.

Security Considerations Used In the Maintenance of Campus Facilities

The Director of operations oversees the physical safety of the facility. The Director of operations works in tandem with Academy owners to ensure pathways and entrances are well lit and that entry locks are in working order.

Note: Innovate Salon Academy does not have on-campus residences.

Campus and Security Education

Information about emergency response procedures is provided at the beginning of enrollment at student orientation, and it is re-emphasized throughout the year on a campus-wide basis as other relevant advisories are issued. Information on how to receive emergency notifications is also located in The Academy security report which is provided electronically to the entire campus community on an annual basis. A common theme of procedures is to encourage students and employees to be aware of their responsibility for their own security and the security of others. The Academy does not have a crime prevention program.

Campus Law Enforcement

The Academy does not employ campus law enforcement or security personnel.

Fire Emergency:

What should I do if a fire breaks out?

- Close the door to the fire area.
- Immediately inform any staff member.
- Calmly but quickly exit the building.
- Remain at least 100 feet from the building.
- Pay close attention to information or requests made by the South Plainfield Fire Department, South Plainfield Police Department, or Innovate Salon Academy.

To promote the safety of all students and staff Fire Drills will be conducted once a month by the Lead Educators. Educators will take attendance once students are safely away from the building. Fire Drills records are kept and maintained by the Lead Educators.

Procedure for Inside Safety Drill

To promote the safety of all students and staff Inside Safety Drills will be conducted once a month (unannounced) by the Lead Educators. Codes will be announced and proper procedures will be followed. Educators will take attendance once students are safely where they need to be according to the Alert Codes.

The possible risk of compromising law enforcement efforts to resolve the case in a timely manner may also be considered; however, in the event of a serious or continuing threat to students or employees, a timely warning shall be issued, but the timely warning shall not require the disclosure of specific law enforcement efforts which could compromise an ongoing criminal investigation.

Sexual Assault and Misconduct (Including Violence Against Women Act (VAWA))

- There are four primary categories of sexual assault: Dating Violence; Domestic Violence; Sexual Assault and Stalking. The primary definition for each of these categories is as follows:
- **Dating Violence** is violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with a victim.
 - A social relationship is defined as a relationship of a romantic or intimate nature and is based upon the reporting party or third party statements taking into consideration the length of the relationship, the type of the relationship and the frequency of the relationship.
- **Domestic Violence** is a felony or misdemeanor crime of violence committed by a current or former spouse or intimate partner; a person with whom the victim shares a child in common; a person cohabitating or has cohabitated with the victim as a spouse or intimate partner; a person similarly situated to a spouse under the domestic and family violence laws of the jurisdiction in which the crime of violence occurred; or any other person against an adult or youth victim who is protected from that person's acts under the domestic and family violence laws of the jurisdiction in which the crime of violence occurred. Domestic violence can be a single event or a pattern of behavior that includes, but is not limited to, sexual, or physical abuse.
- **Sexual Assault** is defined as an offense that meets the definition of rape, sodomy, and sexual assault with an object, fondling, incest, or statutory rape as used in the FBI's UCR program included in Appendix A of Subpart D or Part 668.
- **Stalking** is defined as engaging in a course of conduct directed at a specific person that would cause a reasonable person to fear for his or her safety or safety of others or suffer substantial emotional distress. Course of conduct is defined as engaging in two or more acts, including, but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property. A reasonable person is defined as someone reasonable under similar circumstances and with similar identities to the victim. Substantial emotional distress is defined as significant mental suffering or anguish that may, but does not necessarily require medical or other professional treatment or counseling.
- Definitions of the following sexual misconduct/VAWA related offenses are according to local jurisdiction governing Innovate Salon Academy, South Plainfield NJ.
- The Academy prohibits all sexual misconduct and related VAWA offenses: crimes of dating violence, domestic violence, sexual assault, and stalking, as those terms are defined in the final regulations of VAWA or the definitions of these terms in the applicable jurisdiction.

Consent as defined by local jurisdiction in reference to sexual activity:

- The affirmative, unambiguous, and voluntary agreement to engage in a specific sexual activity during a sexual encounter. Consent cannot be given by an individual who is asleep, or mentally or physically incapacitated either through the effect of drugs or alcohol or for any other reason; or is under duress, threat, coercion, or force, or inferred under circumstances in which consent is not clear, including but not limited to the absence of "no" or "stop" or the existence of a prior or current relationship or sexual activity.

Bystander Intervention as defined by local jurisdiction:

- Safe and positive steps a bystander may take to prevent harm or intervene when there is a risk of domestic violence, dating violence, sexual assault, or stalking against another person could include, but is not limited to:
 - Understanding institutional structures and cultural conditions that facilitate violence; Information about recognizing situations of potential harm, overcoming barriers to intervening, identifying safe and effective intervention options, and taking action, such as reporting incidents to appropriate authorities, information on how to recognize warning signs of abusive behavior in order to mitigate the likelihood of perpetration, victimization, or bystander inaction.
- *The Academy defines the following based on the local jurisdiction in which The Academy is located:*
 - Awareness programs are defined as: the **state** or ability to perceive, to feel, or to be **conscious** of events, **objects**, thoughts, emotions, or sensory **patterns**. In this level of consciousness, sense data can be confirmed by an observer without necessarily implying **understanding**.

Ongoing prevention and awareness campaigns are defined as: campaigns that are sustained over time focusing on increasing awareness or understanding of topics relevant to SA, DV and stalking prevention. These programs will occur at different levels throughout the institution (i.e. faculty, athletics, incoming students) and will utilize a range of strategies. Ongoing awareness and prevention campaigns may include information about what constitutes sexual assault, dating violence/intimate partner abuse, and stalking, changing social norms, promoting recognition of perpetrator tactics, enhancing understanding of consent, and advancing prosocial behaviors of individuals and communities.

*Primary prevention programs are defined as: The term **primary prevention** refers to programming, initiatives and strategies intended to stop domestic violence, dating violence, sexual assault, or stalking before it occurs to prevent initial perpetration or victimization through the promotion of positive and healthy behaviors and beliefs. Efforts to change behavior and social norms, and promote healthy relationships, healthy sexuality and egalitarian gender roles, or efforts to understand risk factors and protective factors for bystander inaction and change social norms around bystander inaction are all examples of primary prevention.*

- *Risk Reduction is defined as: options designed to decrease perpetration and bystander inaction and to increase empowerment for victims in order to promote safety and to help individuals and communities address conditions that facilitate violence.*

Warning Signs of Abusive Behavior

- Information regarding risk reduction by recognizing warning signs of abusive behavior can be found at:
<http://www.helpguide.org/articles/abuse/domestic-violence-and-abuse.htm>
- The definition of "Rape" as defined by the FBI UCR Summary Reporting Systems is as follows: "Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim."

Unfounded Crime Data

- The number of “unfounded” crime data that is withheld from The Academy’s crime statistics during the most recent three years will be reported to the Department through its annual security reporting (Campus Crime Report).
 - Institutions may only exclude a reported crime from its upcoming annual security report or remove a reported crime from its previously reported statistics only after a full investigation. Only sworn or commissioned law enforcement personnel (this does not include a district attorney who is sworn or commissioned) can make a formal determination that the report was false or baseless when made and that the crime report was therefore “unfounded”. Crime reports can be properly determined to be false only if the evidence from the complete and thorough investigation establishes that the crime reported was not, in fact, completed or attempted in any manner. Crime reports can only be determined to be baseless if the allegations reported did not meet the elements of the offense or were improperly classified as crimes in the first place.
- A case cannot be designated “unfounded” if:
 - No investigation was conducted or the investigation was not completed
 - Merely because the investigation failed to prove that the crime occurred; this would be an inconclusive or unsubstantiated investigation.
 - Recovery of stolen property.
 - Low value of stolen property.
 - Refusal of victim to cooperate with law enforcement.
 - The prosecution or the failure to make an arrest.
 - The findings of a coroner, court, jury (either grand or petit) or prosecutor do not “unfound” crime reports of offenses or attempts.
- If a crime is not included in the Clery Act statistics because it was “unfounded”, The Academy will still maintain accurate documentation of reported crime and the basis for “unfounding” the crime.
 - Documentation must demonstrate that the determination to “unfound” the crime was based on the results of the law enforcement investigation and evidence.
- In conclusion, all reports of crimes must be included in the statistics, except in the rare case that crime report is “unfounded”.
